

Priority Balance

Compare the two life-strategies below. The first one illustrates what can happen if your faith is important to the exclusion of daily activities. The second one illustrates how you can bring your faith into everything you do.

1 – Priorities Out of Balance			2 – Priorities in Balance		

Now think about your priorities such as (God, Spouse, Children, Work, Family, Church, Self, Rest/Sabbath, Hobbies, Friends, Finances, Health, Education). In the third set (3) write your priorities in order from most to least important. In the fourth set (4) write in how you think your spouse wants them. When you let God be involved, He has a way of helping you complete the important priorities.
